Trainer/assessor guide

BSBOPS402 Coordinate business operational plans

Welcome to this unit of study

This unit describes the skills and knowledge required to implement operational plans by planning and acquiring resources, monitoring and adjusting operational performance and providing reports on performance, as required.

The unit applies to individuals who plan activities to achieve team and organisational objectives. At this level, work will normally be carried out within routine and non-routine methods and involve procedures that require planning, evaluation, leadership and guidance of others.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Prepare to implement operational plan	5
Consult with stakeholders to identify resource requirements	5
Collate, analyse and document details of resource requirements	8
Develop operational plan and implementation method	12
Plan for contingencies.....	18
Develop and present proposals for resource requirements	20
Check your understanding	23
Topic 2: Implement operational plan.....	25
Assist in recruiting and onboarding employees	25
Acquire physical resources and services	34
Support efficient, cost-effective and safe use of resources	38
Adjust the operational plan to manage contingencies	39
Check your understanding	41
Topic 3: Monitor operational performance	43
Monitor operational and productivity performance	43
Use key performance indicators (KPIs) to assess performance	45
Identify unsatisfactory performance and take action to rectify	49

Topic 4: Review operations based on performance	124
Completion record.....	126
Unit mapping.....	127
Trainer/ assessor user instructions.....	130

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Prepare to implement operational plan
- » Implement operational plan
- » Monitor operational performance
- » Review operations based on performance
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
