Trainer/assessor guide

BSBSUS401

Implement and monitor environmentally sustainable work practices

Welcome to this unit of study

This unit describes the skills and knowledge required to effectively analyse the workplace in relation to environmentally sustainable work practices and to implement improvements and monitor their effectiveness.

It applies to individuals with responsibility for a specific area of work or who lead a work group or team and addresses the knowledge, processes and techniques necessary to implement and monitor environmentally sustainable work practices, including the development of processes and tools

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Investigate current practices in relation to resource usage	5
Environmental regulations	5
Procedures for assessing compliance.....	9
Collect and provide information.....	16
Analyse, organise and provide information	20
Resource usage	28
Current purchasing strategies.....	31
Current work processes.....	34
Check your understanding	39
Topic 2: Set targets for improvements	41
Stakeholders, key personnel and specialists.....	41
External sources of information	44
Alternative solutions.....	47

Topic 3: Implement performance improvement strategies.....	149
Topic 4: Monitor performance.....	151
Completion record.....	152
Unit mapping.....	153
Trainer/ assessor user instructions.....	156

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Investigate current practices in relation to resource usage
- » Set targets for improvements
- » Implement performance improvement strategies
- » Monitor performance

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
