## BSBWHS302

### Apply knowledge of WHS legislation in the workplace

#### Welcome to this unit of study

This unit describes the skills and knowledge required to understand and comply with work health and safety (WHS) Acts, regulations and codes of practice in the workplace.

This unit applies to individuals who contribute to actions to achieve compliance with WHS legislation as part of their WHS responsibilities, which are in addition to their main duties.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the National Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide .....	4
Learning resource.....	5
Topic 1: Determine the legal framework for WHS in the workplace.....	5
Identifying and accessing health and safety legislation.....	5
Applying knowledge of legislative requirements .....	11
Identifying duty holders.....	12
Identifying legal obligations and duties .....	14
Identifying consequences of non-compliance .....	19
Check your understanding .....	23

Topic 3: Keep up-to-date with legislation and relevant publications.....	80
Completion record.....	81
Unit mapping and assessment checklist .....	82
Trainer/ assessor user instructions.....	84

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Determine the legal framework for WHS in the workplace
- » Contribute to activity that reflects WHS legislative requirements
- » Keep up-to-date with legislation and relevant publications

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
