Trainer/assessor guide

BSBWHS311

Assist with maintaining workplace safety

Welcome to this unit of study

This unit describes the skills and knowledge required to assist with implementing and monitoring an organisation's work health and safety (WHS) policies, procedures and programs as part of a small work team.

The unit applies to individuals who have roles in assisting with maintaining workplace safety in an organisation. Individuals closely monitor aspects of work associated with the safe delivery of products and services, and they contribute to influencing safety in the workplace.

NOTES

1. The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where model WHS laws have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.
2. The model WHS laws include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Assist with incorporating WHS policies and procedures into work team processes	5
Health and safety requirements	5
Explaining organisational WHS	7
Hazard identification and risk assessment	8
Check your understanding	11
Topic 2: Contribute to consultative arrangements for managing WHS.....	13
Implementing consultative processes	13
Respond to WHS issues	16
Encourage others	17
Engaging with required personnel	19
Check your understanding	21
Topic 3: Contribute to organisational procedures for providing WHS training.....	23
WHS training	23
Developing work team's WHS competence	26
Assist work team members	27
Check your understanding	29
Topic 4: Participate in identifying hazards, and assessing and controlling risks for the work area	31
Identify hazards	31
Control risks using the hierarchy of control measures	34
Inadequacies in existing risk control measures	36
Report inadequacies	38
WHS incident records	39
Check your understanding	43
Topic 5: Additional learning	45
Characteristics and composition of the work team	45
WHS policies and procedures, relating to risk and emergency investigation and reporting	47
Relevant legislation, regulations and codes of practice	48

Topic 2: Contribute to consultative arrangements for managing WHS.....	86
Topic 3: Contribute to organisational procedures for providing WHS training	88
Topic 4: Participate in identifying hazards, and assessing and controlling risks for the work area	90
Completion record.....	92
Unit mapping.....	93
Trainer/ assessor user instructions.....	96

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Assist with incorporating WHS policies and procedures into work team processes
- » Contribute to consultative arrangements for managing WHS
- » Contribute to organisational procedures for providing WHS training
- » Participate in identifying hazards, and assessing and controlling risks for the work area
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
