Trainer/assessor guide

BSBWHS517

Contribute to managing a WHS information system

Welcome to this unit of study

This unit describes the skills and knowledge required to contribute to managing a work health and safety information system (WHSIS) that supports the effective management of WHS. It involves accessing, collecting and analysing WHS information and data; evaluating the effectiveness of the WHSIS and contributing to improving the management of WHS; and communicating the change.

The unit applies to those who contribute to managing a WHSIS. These people work in a range of WHS roles across all industries, and apply a substantial knowledge base and well-developed skills in a wide variety of WHS contexts. Individuals will apply skills and knowledge to enable them to manage information and data management processes, including analysis of the data. They are not required to design the actual information system or process.

NOTES

1. The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent, and generally either can be used in the workplace. In jurisdictions where model WHS laws have not been implemented, registered training organisations (RTOs) are advised to contextualise this unit of competency by referring to existing WHS legislative requirements.
2. The model WHS laws include the model WHS Act, model WHS Regulations and model WHS Codes of Practice. See Safe Work Australia for further information.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Facilitate collection of workplace information and data.....	5
Sources of health and safety information and data.....	5
Legislation, policies and procedures	8
Reporting to external bodies.....	10
Recording and storing information and data.....	12
Check your understanding	15
Topic 2: Contribute to operating the WHSIS	17
Advising and supporting system users	17
Identify training and development needs of WHSIS users, and take action as required to facilitate the required training within scope of own role	19
Check your understanding	21
Topic 3: Contribute to reviewing WHSIS effectiveness	23
Frequency, method and scope of system reviews	23
User participation and consultation during improvement activities	25
Reviewing the accuracy, currency and relevance of information	27
Identifying system elements needing improvement.....	28
Check your understanding	29
Topic 4: Contribute to improving WHS management.....	31
Recommending system improvements	31
Developing measures to improve systems	33
Communicating changes to the system.....	34
Implementing improvement measures	35
Check your understanding	37
References.....	39

Topic 4: Contribute to improving WHS management.....	76
Completion record.....	78
Unit mapping.....	79
Trainer/ assessor user instructions.....	82

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Facilitate collection of workplace information and data
- » Contribute to operating the WHSIS
- » Contribute to reviewing WHSIS effectiveness
- » Contribute to improving WHS management

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
