Trainer/assessor guide

CHCCCS041

Recognise healthy body systems

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to work with basic information about healthy body systems and the impacts of ageing and disability. It includes recognising and reporting any changes in healthy bodies involving people who are ageing or living with disability. Any identified issues of concern to be reported to the supervisor or professional health staff.

This unit applies to workers across a range of community services contexts.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian standards and industry codes of practice.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource	5
Topic 1: Work with information about the human body.....	5
Use and interpret health terminology that describes the structure, function and location of major body systems	5
Use and interpret information that relates to the interrelationships between major components of body systems and other structures	9
Check your understanding	33
Topic 2: Recognise and promote ways to support healthy functioning of the body	35
Review factors that contribute to maintenance of a healthy body	35

Third party evidence collection agreement	112
Practical demonstration	113
Completion record	125
Unit mapping	126
Trainer/assessor instructions and requirements	131

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Work with information about the human body
- » Recognise and promote ways to support healthy functioning of the body
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
