# Trainer/assessor guide

## CHCMHS003

### Provide recovery oriented mental health services

#### Welcome to this unit of study

This unit describes the skills and knowledge required to work collaboratively in providing services to implement a range of strategies as part of recovery oriented service provision for people with mental illness.

This unit applies to work with people living with mental illness in a range of community services work contexts.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

# Contents

About this trainer/assessor guide .....	6
Learning resource.....	7
Topic 1: Share and collect information to collaboratively inform the plan for recovery.....	7
Recovery oriented frameworks and alliance relationships .....	7
Determine information that must be collected and accessed .....	18
Access, equity and limits to confidentiality.....	22
Consent / informed consent .....	28

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Share and collect information to collaboratively inform the plan for recovery
- » Facilitate collaborative planning process for recovery
- » Collaboratively implement plan for recovery
- » Develop and maintain effective working relationships with care support network
- » Support person during challenges
- » Collaboratively review the effectiveness of the plan and support provided

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
