

About this trainer/assessor guide	6
Learning resource.....	7
Topic 1: Apply principles and aims of a palliative approach when supporting people	7
Recognise the holistic needs of the person extending over time, not just end-of-life	7
Support the person, their family, carer and others identified by the person to express needs and preferences and report information to supervisor	14
Communicate with the person, their family, carer and others identified by the person in relation to the person's quality-of-life, pain and comfort and report information to supervisor	20
Adjust communication techniques to meet the individual needs of the person and their family, carer and others identified by the person	23
Respect the family, carer and others identified by the person as an integral part of the care team and ensure that they have the information and support needed	26
Check your understanding	29
Topic 2: Respect the person's preferences for quality-of-life choices	31
Create a supportive environment that encourages the person, their family, carer and others identified by the person to share information regarding changing needs and preferences	31
Respect the person's individuality, values and beliefs in the context of support provision	34
Recognise needs and issues outside the scope of own job role and refer to supervisor	38
Communicate with the person, their family, carer or others identified by the person in a manner that shows empathy and provides emotional support.....	42
Check your understanding	45
Topic 3: Follow the person's advance care directives in the individualised plan	47
Interpret and follow advance care directives in the individualised plan in accordance with own job role and organisational, legal and ethical requirements.....	47
Comply with end-of-life decisions as documented in the individualised plan and in accordance with legal requirements.....	50
Report the person's changing needs and issues in relation to end-of-life for documentation in the individualised plan according to organisational policies and procedures	53
Monitor the impact of the person's end-of-life needs, issues and decisions on their family, carer and others and refer to appropriate member of the care team for support according to organisational policies and procedures.....	58
Deliver services in a manner that supports the person's right to choose the location of their end-of-life care	61
Check your understanding	63
Topic 4: Respond to signs of pain and other symptoms	65
Observe and document the person's pain and other symptoms in line with individualised plan and report to appropriate member of the care team	65
Implement strategies to manage pain and promote comfort in line with individualised plan and within scope of own job role	70
Document effectiveness of pain management strategies	75
Recognise and report concerns in the workplace surrounding the use of pain-relieving medication	77
Check your understanding	79

Topic 5: Follow end-of-life care strategies.....	81
Regularly check for any changes on individualised plan that indicate decisions made by the person have been reviewed	81
Provide a supportive environment to the person, their family, carer, others identified by the person and others involved in end-of-life care	84
Respect and support the person's preferences and culture when providing end-of-life care according to individualised plan and within scope of own job role.....	86
Maintain dignity of the person when providing planned end-of-life care and care immediately following death	90
Recognise any signs of the person's deterioration or imminent death and dying and report to appropriate member of care team, according to organisational policies and procedures	96
