Trainer/assessor guide

CHCSAC010

Foster holistic learning, development and wellbeing for school age children

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to foster and enhance the holistic learning, development and wellbeing of school age children. It includes the ability to use detailed knowledge of developmental theory and different developmental domains and how they link to support holistic development.

This unit applies to educators who work in regulated school age education and care services to both develop and implement curriculum in the context of an approved learning framework. They may at times work alone or without onsite supervision.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide	4
Learning resource	5
Topic 1: Develop, maintain and share knowledge of childhood development for school age children	5
Identify and access credible sources of information and evidence about childhood development	5
Use critical thinking to interpret and compare information from different sources and perspectives	10
Assess the relevance of information in the context of own work and learning frameworks used.....	12
Identify and use opportunities to update and enhance own knowledge.....	15
Identify and use opportunities to share knowledge with colleagues and others involved in the care and education of children	16
Check your understanding	19
Topic 2: Foster development in all developmental domains.....	21
Investigate and act on ways to integrate evidence about childhood development into work practice	21
Identify suitable strategies to support development for specific domains.....	24
Plan, document, and provide environments and curriculum with appropriate levels of challenge where children are encouraged to explore, experiment, and take risks in their learning and leisure activities ..	36
Check your understanding	43
Topic 3: Foster holistic and collaborative practice	45
Observe and monitor children's skills and development in ways that reflect the interrelationships between different developmental domains.....	45
Develop and use tools and resources in ways that reflect the interrelated nature of development	50
Plan and provide play opportunities that allow children to experience agency through being active decision makers in the learning environment	53
Create opportunities that facilitate collaboration and diverse contributions to the learning community	56
Check your understanding	59
Topic 4: Evaluate work practice	61
Monitor children's development and critically reflect on own practice for continuous improvement	61
Identify and use opportunities to gather feedback from colleagues, families, and children.....	64
Use and expand on children's ideas and skills to improve practice in the context of childhood development	66
Make evaluation a regular activity, and document outcomes according to service policies and procedures	67
Use evaluation outcomes to influence the design of future practice	71
Check your understanding	73

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Develop, maintain and share knowledge of childhood development for school age children
- » Foster development in all developmental domains
- » Foster holistic and collaborative practice
- » Evaluate work practice

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
