Trainer/assessor guide

CPPCLO3011

Clean using environmentally sustainable work practices

Welcome to this unit of study

This unit of competency specifies the outcomes required to clean using the environmentally sustainable work practices defined by company and government compliance requirements. The unit covers identifying resource use, ensuring compliance with regulatory requirements, and contributing to improvements in environmentally sustainable work practices.

The unit supports cleaners who work alone or in teams. It applies in a range of commercial and residential work sites.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

- About this trainer/assessor guide 4
- Learning resource..... 5
 - Topic 1: Identify requirements for sustainable work practices 5
 - Identify and confirm sustainable practices 5
 - Identify and discuss resource consumption 10
 - Identify resource efficiency issues and communicate benefits 12
 - Check your understanding 17
 - Topic 2: Comply with environmental regulations. 19
 - Report breaches and identify regulations and plans for rectification 19
 - Check your understanding 25
 - Topic 3: Contribute to resource efficiency improvements..... 27
 - Manage water usage and minimise waste 27
 - Monitor waste management practices 31

 - Topic 3: Contribute to resource efficiency improvements 73
- Completion record..... 74
- Unit mapping and assessment checklist 75
- Trainer/ assessor user instructions..... 77

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Identify requirements for sustainable work practices
- » Comply with environmental regulations
- » Contribute to resource efficiency improvements

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
