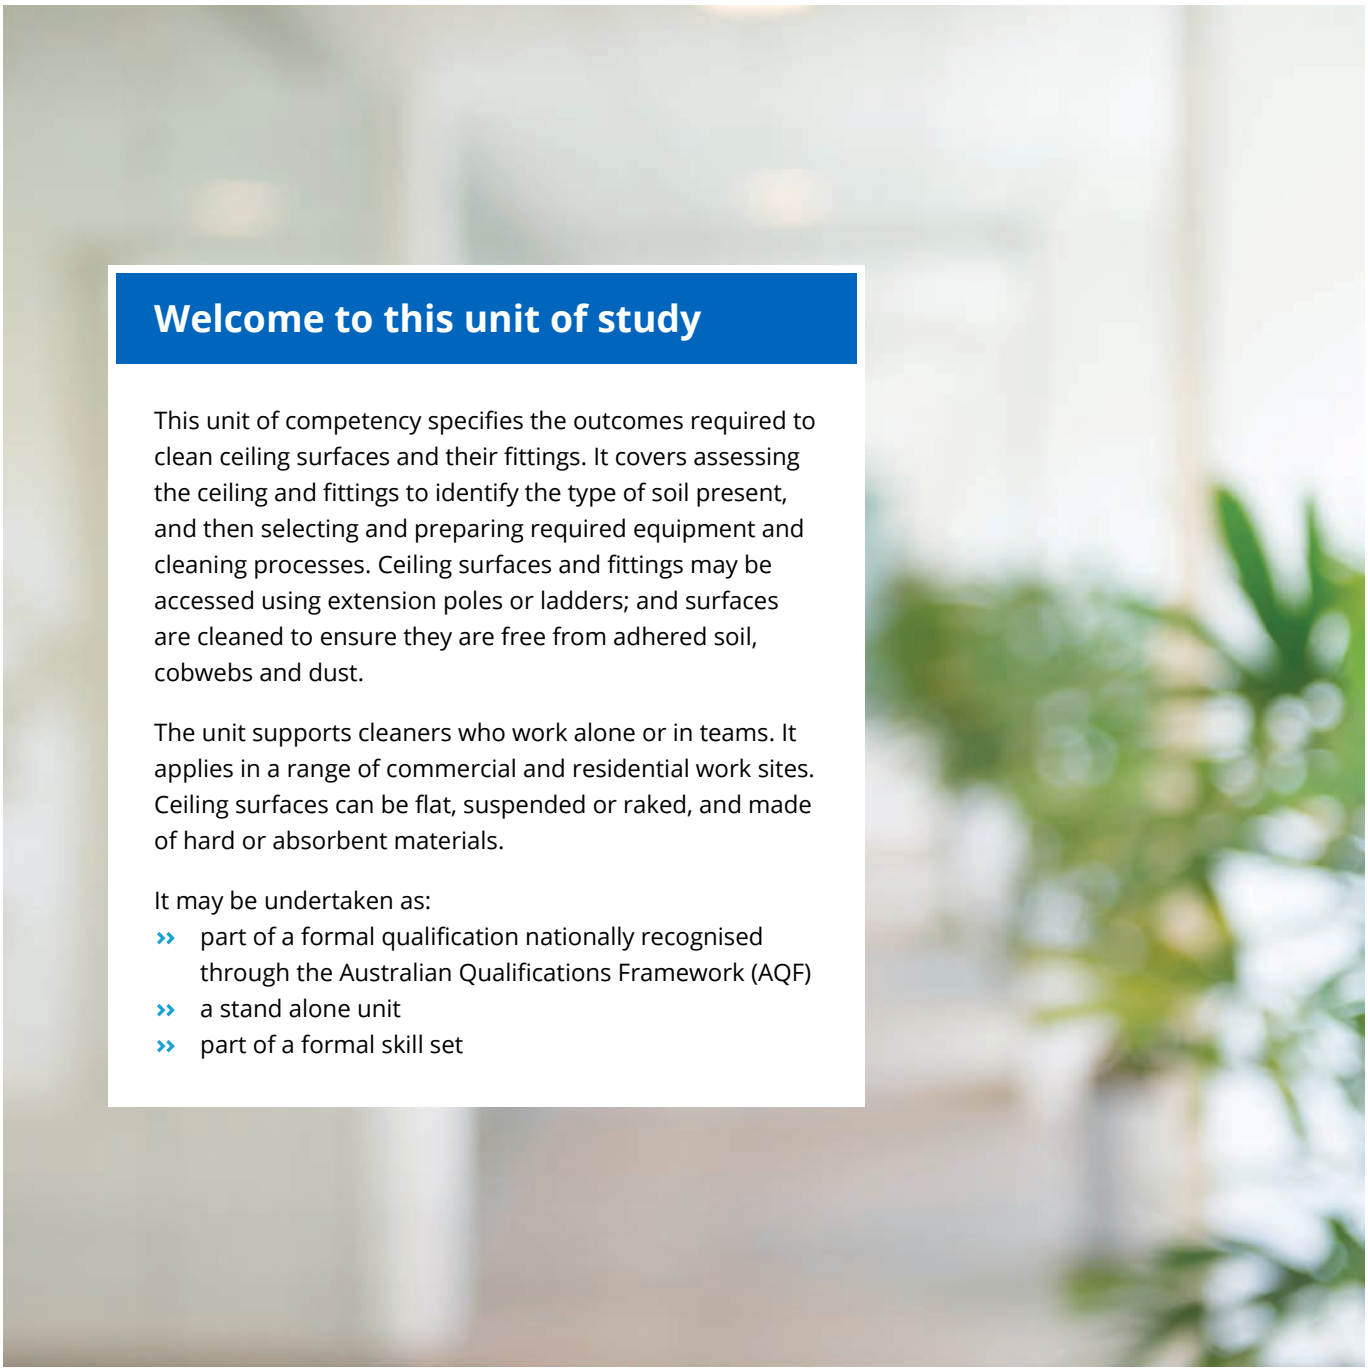
Trainer/assessor guide

CPPCLO3040
Clean ceiling surfaces and fittings



Welcome to this unit of study

This unit of competency specifies the outcomes required to clean ceiling surfaces and their fittings. It covers assessing the ceiling and fittings to identify the type of soil present, and then selecting and preparing required equipment and cleaning processes. Ceiling surfaces and fittings may be accessed using extension poles or ladders; and surfaces are cleaned to ensure they are free from adhered soil, cobwebs and dust.

The unit supports cleaners who work alone or in teams. It applies in a range of commercial and residential work sites. Ceiling surfaces can be flat, suspended or raked, and made of hard or absorbent materials.

It may be undertaken as:

- part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- a stand alone unit
- part of a formal skill set

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- Plan and prepare
- Clean ceilings and fittings
- Tidy work site
- Clean and safety check equipment, and store equipment and chemicals

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- a set of true or false questions
- a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- information on competency-based assessment
- instructions on how you will be assessed
- assessment tools to assess your competence
- instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
