Trainer/assessor guide

FSKNUM009

Use familiar and simple metric measurements for work

Welcome to this unit of study

This unit describes the skills and knowledge required to use familiar and simple metric measurements in familiar workplace tasks and texts. It includes identifying and interpreting measurement information, performing simple measurement processes, and communicating familiar measurement information.

An individual performing these tasks may work with an expert or mentor where support is available, if requested.

This unit applies to individuals who use, or are preparing to use, numeracy skills to complete workplace activities. This includes existing workers and individuals preparing for employment through vocational education and training. This unit should be integrated and contextualised with vocational training to support achievement of vocational competency.

The unit is aligned to, but does not fully address, the Australian Core Skills Framework (ACSF) numeracy core skill indicators .09, .10 and .11 at level 2 in the workplace and employment domain of communication.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Identify and interpret simple metric measurements	5
Identify measurement information in workplace tasks and texts.....	5
Interpret measurement information in workplace tasks and texts	7
Check your understanding	9
Topic 2: Use familiar measurement processes	11
Select a measurement process relevant to workplace task.....	11
Estimate the outcome of measurement.....	13
Perform measurements using measurement equipment	14
Calculate measurements using arithmetical processes	17
Check if the measurement is reasonable	21
Check your understanding	23
Topic 3: Communicate familiar measurement information	25
Use mathematical written representation to write measurement information in workplace texts and tasks	25
Use mathematical oral language to discuss measurement information in workplace tasks and texts	27
Check your understanding	29
Assessment workbook.....	31
Unit information	33
What is competency-based assessment?.....	34
How will my competency be assessed?.....	35
Assessment agreement.....	36
Foundation skills checklist.....	37
Skills recognition.....	38
Topic 1: Identify and interpret simple metric measurements	39
Topic 2: Use familiar measurement processes	40
Topic 3: Communicate familiar measurement information	41
Knowledge questions	42
Topic 1: Identify and interpret simple metric measurements	43
Topic 2: Use familiar measurement processes	45
Topic 3: Communicate familiar measurement information	47
Topic 4: Specific knowledge evidence	48
Performance tasks.....	56
Third party evidence collection agreement	57
Topic 1: Identify and interpret simple metric measurements	58
Topic 2: Use familiar measurement processes	60
Topic 3: Communicate familiar measurement information	62
Completion record.....	64
Unit mapping.....	65
Trainer/ assessor user instructions.....	67

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Identify and interpret simple metric measurements
- » Use familiar measurement processes
- » Communicate familiar measurement information

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
