Trainer/assessor guide

FSKNUM011

Use familiar and simple spatial information for work

Welcome to this unit of study

This unit describes the skills and knowledge required to use familiar workplace maps, plans and diagrams in familiar workplace tasks and texts. It includes identifying and interpreting directional information, performing simple spatial process and communicating familiar spatial information.

An individual performing these tasks may work with an expert or mentor where support is available, if requested.

This unit applies to individuals who use, or are preparing to use, numeracy skills to complete workplace activities. This includes existing workers and individuals preparing for employment through vocational education and training. This unit should be integrated and contextualised with vocational training to support achievement of vocational competency.

The unit is aligned to, but does not fully address, the Australian Core Skills Framework (ACSF) numeracy core skill indicators .09, .10 and .11 at level 2 in the workplace and employment domain of communication.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Identify familiar spatial information.....	5
Identify and interpret common items, places, symbols and keys in workplace maps, plans and diagrams	5
Identify and interpret orally described locations.....	8
Check your understanding	9
Topic 2: Use familiar spatial processes.....	11
Select the spatial process relevant to workplace task	11
Follow oral instructions to locate workplace objects	13
Give oral instructions to direct others to workplace objects	14
Use workplace maps and diagrams and step-by-step instructions to locate workplace objects	15
Check your working out of the spatial process and outcome.....	16
Check your understanding	17
Topic 3: Communicate simple spatial information	19
Use mathematical written representation to write spatial process information	19
Use mathematical oral language to discuss spatial process information	20
Check your understanding	21

Assessment workbook.....	25
Unit information	27
What is competency-based assessment?.....	28
How will my competency be assessed?.....	29
Assessment agreement.....	30
Foundation skills checklist.....	31
Skills recognition.....	32
Topic 1: Identify familiar spatial information.....	33
Topic 2: Use familiar spatial processes.....	34
Topic 3: Communicate simple spatial information	35
Knowledge questions	36
Topic 1: Identify familiar spatial information.....	37
Topic 2: Use familiar spatial processes.....	39
Topic 3: Communicate simple spatial information	41
Topic 4: Specific knowledge evidence	42
Performance tasks.....	52
Third party evidence collection agreement	53
Topic 1: Identify familiar spatial information.....	54
Topic 2: Use familiar spatial processes.....	56
Topic 3: Communicate simple spatial information	58
Completion record.....	60
Unit mapping.....	61
Trainer/ assessor user instructions.....	63

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Identify familiar spatial information
- » Use familiar spatial processes
- » Communicate simple spatial information

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
