## FSKNUM018

# Collect data and construct routine tables and graphs for work

### Welcome to this unit of study

This unit describes the skills and knowledge required to collect, collate and organise familiar and routine data and construct tables, column and bar graphs for work. It includes interpreting data from workplace tables and graphs and communicating mathematical information.

An individual performing these tasks works independently and uses familiar support resources.

This unit applies to individuals who use, or are preparing to use, numeracy skills to complete workplace activities. This includes existing workers and individuals preparing for employment through vocational education and training. This unit should be integrated and contextualised with vocational training to support achievement of vocational competency.

This unit is aligned to, but does not fully address, the Australian Core Skills Framework (ACSF) numeracy core skill indicators .09, .10 and .11 at level 3 in the workplace and employment domain of communication.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

# Contents

<b>About this trainer/assessor guide .....</b>	<b>4</b>
<b>Learning resource.....</b>	<b>5</b>
Topic 1: Identify relevant and familiar workplace data .....	5
Identify data collection requirements including the audience and purpose .....	5
Identify sources of familiar and routine data in the workplace and possible methods of collection .....	7
Check your understanding .....	9
Topic 2: Collect data and develop routine tables and graphs for workplace task .....	11
Select the mathematical problem solving process for completing workplace task .....	11
Describe an expected result of the data collection and results.....	15
Select a method to collect routine workplace data and collect relevant data sample .....	16
Collate data into a table or spreadsheet .....	18
Determine scale and axes and construct a routine graph or chart using appropriate tools.....	21
Check working out and compare with the initial expected result .....	26
Check your understanding .....	27
Topic 3: Communicate results .....	29
Document and report on workplace data and problem solving process and results .....	29
Present and discuss workplace information and problem solving process and results .....	30
Check your understanding .....	31
References.....	33
<b>Assessment workbook.....</b>	<b>35</b>
Unit information .....	37
What is competency-based assessment?.....	38
How will my competency be assessed?.....	39
Assessment agreement.....	40
Foundation skills checklist.....	41
<b>Skills recognition.....</b>	<b>42</b>
Topic 1: Identify relevant and familiar workplace data .....	43
Topic 2: Collect data and develop routine tables and graphs for workplace task .....	44
Topic 3: Communicate results .....	45
<b>Knowledge questions .....</b>	<b>46</b>
Topic 1: Identify relevant and familiar workplace data .....	47
Topic 2: Collect data and develop routine tables and graphs for workplace task .....	49
Topic 3: Communicate results .....	51
Topic 4: Specific knowledge evidence .....	53
<b>Performance tasks.....</b>	<b>64</b>
Third party evidence collection agreement .....	65
Topic 1: Identify relevant and familiar workplace data .....	66
Topic 2: Collect data and develop routine tables and graphs for workplace task .....	68
Topic 3: Communicate results .....	70

Completion record..... 72  
Unit mapping..... 73  
Trainer/ assessor user instructions..... 75

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Identify relevant and familiar workplace data
- » Collect data and develop routine tables and graphs for workplace task
- » Communicate results

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
