Trainer/assessor guide

HLTINF001

Comply with infection prevention and control policies and procedures

Welcome to this unit of study

This unit describes the skills and knowledge required to follow organisational infection prevention and control procedures, including implementing standard and transmission-based precautions and responding to infection risks.

This unit applies to individuals working in health and direct client care contexts.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Follow standard and additional precautions for infection prevention and control	5
Follow hand hygiene practices	5
Implement hand care procedures.....	9
Use personal protection equipment, and follow respiratory hygiene procedures.....	12
Environmental cleaning procedures	15
Handle, transport and process linen and disposal of contaminated waste.....	18
Handle and clean client equipment to prevent transmission of infection	27
Check your understanding	31
Topic 2: Identify infection hazards and assess risks	33
Identify infection hazards, and own areas of responsibility for infection prevention and control	33
Assess risk from identified hazards, report activities and tasks that put self and others at risk, and identify control measures.....	39
Check your understanding	45

Trainer/ assessor user instructions..... 151

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Follow standard and additional precautions for infection prevention and control
- » Identify infection hazards and assess risks
- » Follow procedures for managing risks associated with specific hazards

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
