Trainer/assessor guide

HLTINFCOV001

Comply with infection prevention and control policies and procedures

Welcome to this unit of study

This unit describes the skills and knowledge required to follow organisational infection prevention and control procedures, including implementing standard and transmission-based precautions and responding to infection risks.

This unit applies to individuals working in health and direct client care contexts.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Follow standard and additional precautions for infection prevention and control	5
Follow hand hygiene practices	5
Implement hand care procedures.....	10
Follow procedures for choice and use of personal protection equipment.....	12
Respiratory hygiene and coughing/ sneezing etiquette	15
Environmental cleaning	17
Handle, transport and process linen.....	20
Dispose of contaminated waste in ways that prevent the spread of infection	22
Handle and clean equipment to prevent transmission of infection	29
Additional precautions for preventing transmission of infection.....	31
Check your understanding	33
Topic 2: Identify infection hazards and assess risks	35
Identify infection hazards, and your own areas of responsibility for infection prevention and control ...	35
Document and assess the likelihood and severity of risk and report on activities and tasks that put yourself and others at risk	37
Identify measures that will minimise or control risks	39
Check your understanding	41
Topic 3: Follow procedures for managing risks associated with specific hazards	43
Protocols for care after exposure to body fluids	43
Appropriate signage	46
Remove and clean up spills	47
Minimise contamination by aerosols and splatter, and identify and maintain clean and contaminated zones	50
Confine records, materials and medicaments to designated clean zones.....	52
Confine contaminated instruments and equipment to appropriate zones.....	53
Check your understanding	55
References.....	57
Assessment workbook	59
Unit information	61
What is competency-based assessment?.....	62
How will my competency be assessed?.....	63
Assessment agreement	64
Foundation skills checklist.....	65
Skills recognition.....	66
Topic 1: Follow standard and additional precautions for infection prevention and control	67
Topic 2: Identify infection hazards and assess risks	68
Topic 3: Follow procedures for managing risks associated with specific hazards	69

Knowledge questions	70
Topic 1: Follow standard and additional precautions for infection prevention and control	72
Topic 2: Identify infection hazards and assess risks	85
Topic 3: Follow procedures for managing risks associated with specific hazards	92
Topic 4: Specific knowledge evidence	100
Performance tasks.....	103
Third party evidence collection agreement	104
Topic 1: Follow standard and additional precautions for infection prevention and control	106
Topic 2: Identify infection hazards and assess risks	118
Topic 3: Follow procedures for managing risks associated with specific hazards	120
Completion record.....	126
Unit mapping.....	127
Trainer/ assessor user instructions.....	131

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Follow standard and additional precautions for infection prevention and control
- » Identify infection hazards and assess risks
- » Follow procedures for managing risks associated with specific hazards

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
