Trainer/assessor guide

HLTPAT001

Identify and respond to clinical risks in pathology collection

Welcome to this unit of study

This unit describes the skills and knowledge required to recognise client risk factors, identify emergency situations and provide emergency or first aid response to client reactions associated with pathology specimen collection.

This unit applies to any individual for whom pathology collection is part of the job role. They may be working in collection centres, in hospitals or in other health care environments.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Recognise and assess potential risk.....	5
Identify potential clinical risks of collection procedure	5
Assess client against pre-test criteria and determine risk.....	10
Identify and refer potential risk situations	12
Check your understanding	13
Topic 2: Identify situations requiring emergency or first aid response.....	15
Observe clients for reactions during and after collection procedure	15
Recognise signs of adverse reaction or complication	19
Check your understanding	21
Topic 3: Respond to client reactions and complications.....	23
Follow documented procedures for reactions and complications.....	23
Follow first aid protocols.....	27
Provide clear information to client and obtain consent	29
Complete accurate record of incidents.....	30
Check your understanding	33
References.....	35
Assessment workbook.....	37

Topic 1: Recognise and assess potential risk.....	70
Topic 2: Identify situations requiring emergency or first aid response.....	72
Topic 3: Respond to client reactions and complications.....	74
Completion record.....	76
Unit mapping and assessment checklist	77
Trainer/ assessor user instructions.....	80

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Recognise and assess potential risk
- » Identify situations requiring emergency or first aid response
- » Respond to client reactions and complications

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
