Trainer/assessor guide

HLTPAT002

Perform venous blood collections

Welcome to this unit of study

This unit describes the skills and knowledge required to confirm collection requirements, prepare client and equipment, and perform routine blood collections using venous blood collection.

This unit applies to any individual for whom blood collection is part of the job role. They may be working in collection centres, in hospitals or in other health care environments.

This unit relates to collections from adults of varied ages and genders, adolescents and children over 5 years of age. It does not include collections from babies, neonates, arterial collections or collections made via artificial access devices such as central lines, peripherally inserted central catheter (PICC) lines, or intra venous (IV) catheter.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Greet client and confirm pre-test criteria	5
Greet client and identify self	5
Identify client.....	7
Confirm that client meets pre-testing criteria for required collection	10
Obtain, interpret and record personal and clinical information	11
Explain collection procedure to client	13
Obtain consent from client.....	14
Check your understanding	17
Topic 2: Prepare for venous blood collection procedure	19
Select appropriate collection site based on client evaluation.....	19
Assemble appropriate equipment.....	22
Position client to ensure comfort and safety	24
Seek help if required	26
Check your understanding	27
Topic 3: Draw blood	29
Adopt standard and additional infection control guidelines and precautions	29
Clean site and allow to air dry.....	33
Apply and remove/loosen tourniquet according to equipment requirements	35
Confirm suitable vein and clean skin	36
Anchor vein below the site	38
Insert needle at approved angle.....	40
Collect correct volume of blood in appropriate collection tubes in the approved order of draw	41
Withdraw needle and apply direct pressure to site	42
Dispose of needle immediately and safely.....	43
Invert collection tubes within required timeframe.....	44
Observe client for potential adverse effects	45
Check your understanding	49
Topic 4: Follow post-blood collection procedures.....	51
Accurately label blood collection tubes in front of client.....	51
Dispose of waste	53
Confirm tube labelling information accuracy with client.....	54
Confirm that site has visibly stopped bleeding.....	55
Complete other collection documentation.....	56
Provide client with post venepuncture care instructions	57
Prepare collected samples for transit or store	59
Check your understanding	61
References.....	63

Assessment workbook	67
Unit information	69
What is competency-based assessment?.....	70
How will my competency be assessed?	71
Assessment agreement	72
Foundation skills checklist.....	73
Skills recognition	74
Topic 1: Greet client and confirm pre-test criteria	75
Topic 2: Prepare for venous blood collection procedure	76
Topic 3: Draw blood	77
Topic 4: Follow post-blood collection procedures.....	78
Knowledge questions	79
Topic 1: Greet client and confirm pre-test criteria	81
Topic 2: Prepare for venous blood collection procedure	90
Topic 3: Draw blood	95
Topic 4: Follow post-blood collection procedures.....	109
Topic 5: Specific knowledge evidence.....	116
Performance tasks	122
Third party evidence collection agreement	123
Topic 1: Greet client and confirm pre-test criteria	124
Topic 2: Prepare for venous blood collection procedure	126
Topic 3: Draw blood	128
Topic 4: Follow post-blood collection procedures.....	130
Completion record	132
Unit mapping and assessment checklist	133
Trainer/ assessor user instructions	137

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Greet client and confirm pre-test criteria
- » Prepare for venous blood collection procedure
- » Draw blood
- » Follow post-blood collection procedures

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
