Trainer/assessor guide

ICTICT302

Install and optimise operating system software

Welcome to this unit of study

This unit defines the skills and knowledge required to install, configure and optimise operating system (OS) software to meet business and client needs.

It applies to individuals who may work under supervision and support others using well developed skills in creating solutions through analysis and evaluation of information.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Determine function of operating system	5
Purpose of an operating system.....	5
Batch, real-time, and multi-tasking systems	8
Operating systems and their features	10
Basic functions of operating systems	12
Managing virtual memory	15
Check your understanding	17
Topic 2: Obtain operating system	19
Obtaining technical specifications and system requirements	19
Identifying the installation process	20
Documenting recommendations.....	21
Licensing, hardware and security requirements	22
Check your understanding	25
Topic 3: Install, configure and optimise operating system	27
Installing, configuring and testing an operating system.....	27
Optimising the system	29
Documenting the system.....	31
Check your understanding	33
Topic 4: Provide instruction to meet new software requirements	35
Providing instruction	35
Obtaining client evaluations.....	36
Check your understanding	39
References.....	41
Assessment workbook.....	43
Unit information.....	45
What is competency-based assessment?.....	46
How will my competency be assessed?.....	47
Assessment agreement.....	48
Foundation skills checklist.....	49
Skills recognition.....	50
Topic 1: Determine function of operating system	51
Topic 2: Obtain operating system	52
Topic 3: Install, configure and optimise operating system	53
Topic 4: Provide instruction to meet new software requirements	54
Knowledge questions	55
Topic 1: Determine function of operating system	56
Topic 2: Obtain operating system	62
Topic 3: Install, configure and optimise operating system	66
Topic 4: Provide instruction to meet new software requirements	70
Topic 5: Specific knowledge evidence.....	72

Performance tasks	82
Third party evidence collection agreement	83
Topic 1: Determine function of operating system	84
Topic 2: Obtain operating system	86
Topic 3: Install, configure and optimise operating system	88
Topic 4: Provide instruction to meet new software requirements	90
Completion record	92
Unit mapping	93
Trainer/ assessor user instructions	95

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Determine function of operating system
- » Obtain operating system
- » Install, configure and optimise operating system
- » Provide instruction to meet new software requirements

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
