Trainer/assessor guide

ICTNWK304

Administer network peripherals

Welcome to this unit of study

This unit describes the skills and knowledge required to manage an environment of networked peripheral devices, in order to provide services to client users.

It applies to individuals working as frontline technical support personnel responsible for connecting, maintaining and administering peripheral devices attached to networks.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Install peripherals to a network	5
Planning the location of peripherals	5
Connecting peripherals to networks	7
Connecting peripherals to computers	8
Peripheral accessories and upgrades	11
Testing peripherals.....	14
Check your understanding	15
Topic 2: Configure peripheral services to manage peripherals.....	17
Installing software to manage peripherals.....	17
Naming peripherals and control queues.....	27
Configuring workstations to work with peripherals.....	35
Check your understanding	43
Topic 3: Administer and support peripheral services.....	45
Assigning priority to control queues	45
Peripheral management software.....	47
Creating templates	50
Creating maintenance schedules and usage logs	52
Demonstrating how to use peripherals	56
Check your understanding	57
Topic 4: Maintain peripherals and fix common problems	59
Maintenance schedules	59
Replacing consumables	61
Rectifying mishaps and malfunctions	64
Monitoring peripheral usage.....	66
Check your understanding	69
References.....	71
Assessment workbook	73
Unit information	75
What is competency-based assessment?.....	76
How will my competency be assessed?.....	77
Assessment agreement	78
Foundation skills checklist.....	79
Skills recognition.....	80
Topic 1: Install peripherals to a network	81
Topic 2: Configure peripheral services to manage peripherals.....	82
Topic 3: Administer and support peripheral services.....	83
Topic 4: Maintain peripherals and fix common problems	84

Knowledge questions	85
Topic 1: Install peripherals to a network	86
Topic 2: Configure peripheral services to manage peripherals.....	94
Topic 3: Administer and support peripheral services	98
Topic 4: Maintain peripherals and fix common problems	105
Topic 5: Specific knowledge evidence	111
Performance tasks.....	113
Third party evidence collection agreement	114

Topic 2: Configure peripheral services to manage peripherals.....	116
Topic 3: Administer and support peripheral services	117
Topic 4: Maintain peripherals and fix common problems	119
Completion record.....	120
Unit mapping and assessment checklist	121
Trainer/ assessor user instructions.....	123

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Install peripherals to a network
- » Configure peripheral services to manage peripherals
- » Administer and support peripheral services
- » Maintain peripherals and fix common problems

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
