Trainer/assessor guide

ICTNWK307

Provide network systems administration

Welcome to this unit of study

This unit describes the skills and knowledge required to manage the technical elements of a network, including contributing to a disaster recovery plan and network systems performance monitoring.

It applies to individuals working as frontline technical support personnel, who are responsible for network systems administration.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Prepare to provide network systems administration	5
Network performance requirements	5
Determining network security levels.....	7
Determining network capacity	9
User access privileges	10
Check your understanding	13
Topic 2: Provide client access and security features.....	15
Providing logins, passwords, and applications to users	15
Providing file access	18
Security user data	19
Check your understanding	21
Topic 3: Monitor network performance	23
Analysing and responding to diagnostic information	23
Monitoring software usage	28
Deleting illegal software.....	30
Monitoring hardware response time	31
Providing feedback on performance indicators	32
Check your understanding	33
Topic 4: Additional learning	35
Network operating systems	35
Key elements of a disaster recovery policy	37
Vendor service-level agreements	39
Operating systems supported by an organisation, including functions and basic features.....	41
Organisational policies and procedures	43
Personal responsibilities for software copyright	45
References.....	48
Assessment workbook	49
Unit information	51
What is competency-based assessment?.....	52
How will my competency be assessed?.....	53
Assessment agreement	54
Foundation skills checklist.....	55
Skills recognition.....	56
Topic 1: Prepare to provide network systems administration	57
Topic 2: Provide client access and security features.....	58
Topic 3: Monitor network performance	59

Knowledge questions	60
Topic 1: Prepare to provide network systems administration	61
Topic 2: Provide client access and security features.....	65
Topic 3: Monitor network performance	68
Topic 4: Specific knowledge evidence	73
Performance tasks	80
Third party evidence collection agreement	81
Topic 1: Prepare to provide network systems administration	82
Topic 2: Provide client access and security features.....	84
Topic 3: Monitor network performance	86
Completion record	88
Unit mapping	89
Trainer/ assessor user instructions	91

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Prepare to provide network systems administration
- » Provide client access and security features
- » Monitor network performance
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
