Trainer/assessor guide

ICTNWK308

Determine and action network problems

Welcome to this unit of study

This unit describes the skills and knowledge required to identify, document and provide solutions to network related problems in the context of the technical environment.

It applies to individuals involved in frontline technical support, who maintain network continuity by isolating and rectifying network problems as they arise.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Prepare to action network problems	5
Problem documentation policies and procedures	5
Determining the problem.....	7
Documenting the problem	8
Check your understanding	9
Topic 2: Determine service level requirements and agreements	11
Insurance policies	11
Maintenance and technical support agreements.....	13
Verifying the scope and coverage of support agreements	14
Check your understanding	17
Topic 3: Carry out maintenance support.....	19
Diagnosing and confirm the scope of the problem.....	19
Determining the solution.....	22
Obtaining hardware and software components	23
Resolution and maintenance tasks	25
Check your understanding	27
Topic 4: Prepare and submit maintenance report.....	29
Escalating unresolved maintenance requirements.....	29
Maintenance reports.....	31
Submitting maintenance reports.....	32
Check your understanding	33

Topic 3: Carry out maintenance support.....	68
Topic 4: Prepare and submit maintenance report.....	70
Completion record	72
Unit mapping	73
Trainer/ assessor user instructions	75

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Prepare to action network problems
- » Determine service level requirements and agreements
- » Carry out maintenance support
- » Prepare and submit maintenance report

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
