Trainer/assessor guide

ICTNWK310

Administer network peripherals

Welcome to this unit of study

This unit describes the skills and knowledge required to manage an environment of networked peripheral devices, in order to provide services to client users.

It applies to individuals working as frontline technical support personnel, responsible for connecting, maintaining and administering peripheral devices attached to networks.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Prepare to install peripherals to a network.....	5
Peripheral location	5
Connecting peripherals to a computer network.....	7
Connecting computers to peripherals	8
Adding accessories and upgrades to peripherals.....	10
Check your understanding	13
Topic 2: Configure and manage peripheral services	15
Installing the software that manages peripherals.....	15
Creating identifiers for peripherals and control queues	17
Configuring security and user access.....	18
Configuring workstations.....	19
Check your understanding	23
Topic 3: Administer and support peripheral services.....	25
Assigning priority to control queues	25
Creating templates	26
Configuring settings and creating maintenance schedules	27
Check your understanding	29
Topic 4: Maintain peripherals and fix common problems	31
Establishing a maintenance schedule	31
Assessing peripheral usage	33
Rectifying peripheral service or device failure	34
Documenting processes	35
Check your understanding	37
Topic 5: Additional learning	39
Organisational deliverables that may be used to administer network peripherals.....	39
Current industry standards for network peripherals.....	41
Assessment workbook	43
Unit information	45
What is competency-based assessment?.....	46
How will my competency be assessed?.....	47
Assessment agreement	48
Foundation skills checklist.....	49
Skills recognition.....	50
Topic 1: Prepare to install peripherals to a network.....	51
Topic 2: Configure and manage peripheral services	52
Topic 3: Administer and support peripheral services.....	53
Topic 4: Maintain peripherals and fix common problems	54

Knowledge questions	55
Topic 1: Prepare to install peripherals to a network.....	56
Topic 2: Configure and manage peripheral services	60
Topic 3: Administer and support peripheral services	64
Topic 4: Maintain peripherals and fix common problems	67
Topic 5: Specific knowledge evidence	71
Performance tasks	75
Third party evidence collection agreement	76

Topic 2: Configure and manage peripheral services	80
Topic 3: Administer and support peripheral services	82
Topic 4: Maintain peripherals and fix common problems	84
Completion record	86
Unit mapping	87
Trainer/ assessor user instructions	89

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Prepare to install peripherals to a network
- » Configure and manage peripheral services
- » Administer and support peripheral services
- » Maintain peripherals and fix common problems
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
