Trainer/assessor guide

ICTSAS214

Protect devices from spam and destructive software

Welcome to this unit of study

This unit describes the skills and knowledge required to reduce the risk of a device's operation being affected by spam or destructive software by implementing a range of protective cyber security procedures.

It applies to those working under a level of supervision who have responsibility to provide technical support, exercise discretion to protect devices and secure software in a workplace environment.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Prepare to protect devices from spam and destructive software	5
Identify common types of spam and malware	5
Protective measures against spam and malware.....	9
Select and install spam filter and antimalware programs.....	11
Updating software	12
Configuring software security settings	13
Schedules to run virus protection software	14
Check your understanding	15
Topic 2: Initiate spam and destructive software protection procedures	17
Running virus protection and spam filter software.....	17
Identifying spam or destructive software	19
Reporting spam and destructive software	20
Selecting a protective measure for spam or malware	21
Removing spam or destructive software	22
Check your understanding	25
Topic 3: Finalise and record protection measures	27
Documenting the outcome of protective measures	27
Maintaining records of spam and destructive software.....	28
Reporting the outcomes of protective measures.....	29
Check your understanding	31
Topic 4: Additional learning	33
Organisational procedures.....	33
Operating systems features and components.....	35
Components of hardware that may be affected	36
Technical records.....	37
References.....	39
Assessment workbook	41
Unit information	43
What is competency-based assessment?.....	44
How will my competency be assessed?.....	45
Assessment agreement.....	46
Foundation skills checklist.....	47
Skills recognition.....	48
Topic 1: Prepare to protect devices from spam and destructive software	49
Topic 2: Initiate spam and destructive software protection procedures	50
Topic 3: Finalise and record protection measures	51

Knowledge questions	52
Topic 1: Prepare to protect devices from spam and destructive software	53
Topic 2: Initiate spam and destructive software protection procedures	60
Topic 3: Finalise and record protection measures.....	65
Topic 4: Specific knowledge evidence.....	68
Performance tasks.....	73
Third party evidence collection agreement	74
Topic 1: Prepare to protect devices from spam and destructive software	76
Topic 2: Initiate spam and destructive software protection procedures	78
Topic 3: Finalise and record protection measures.....	80
Completion record.....	82
Unit mapping.....	83
Trainer/ assessor user instructions.....	85

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Prepare to protect devices from spam and destructive software
- » Initiate spam and destructive software protection procedures
- » Finalise and record protection measures
- » Additional learning

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
