SITHKOP002

Plan and cost basic menus

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to plan and cost basic menus for dishes or food product ranges for any type of cuisine or food service style. It requires the ability to identify customer preferences, plan menus to meet customer and business needs, cost menus and evaluate their success.

It does not cover the specialist skills used by senior catering managers and chefs to design and cost complex menus after researching market preferences and trends. Those skills are covered in SITHKOP007 Design and cost menus.

The unit applies to hospitality and catering organisations. Menus can be for ongoing food service, for an event or function, or for a food product range such as patisserie products.

It applies to cooks, patissiers and catering personnel who usually work under the guidance of more senior chefs.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set
