Trainer/assessor guide

SITTTSL008

Book supplier products and services

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to make and administer customer bookings for products and services. It requires the ability to identify customer booking requirements, request and confirm them with suppliers, and administer all bookings through to finalisation.

The unit does not cover the skills required to receive and process an incoming reservation, which are covered in SITTTSL007 Process reservations.

The unit applies to frontline operations personnel who operate with some level of independence and under limited supervision. This includes travel consultants, inbound tour coordinators, visitor information officers, account managers for professional conference organisers, event coordinators, tour guides, banquet coordinators or managers, hotel guest relations officers, tour desk officers, and operations coordinators.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Administer customer file and identify booking requirements
- » Request products and services
- » Record requests and confirmations
- » Update and finalise bookings

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
