Trainer/assessor guide

SITXINV001

Receive and store stock

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to check and take delivery of stock and appropriately store, rotate and maintain the quality of stock items.

It does not include specialist stock control processes for perishable foodstuffs which are covered by SITXINV002 Maintain the quality of perishable items.

The unit is relevant to organisations where stock control is an integral and essential part of business operations, and where there are control issues to be considered. The unit is not appropriate for situations where stock management is very simple, such as controlling stationery supplies in a small office.

It applies to operational personnel who work with very little independence and under close supervision. They apply little discretion and judgement and follow predefined organisational procedures to report any stock-related discrepancies to a higher level staff member for action.

The unit applies to all tourism, travel, hospitality and event sectors and to any type of stock.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Take delivery of stock
- » Store stock
- » Rotate and maintain stock

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
