Trainer/assessor guide

SITXWHS003

Implement and monitor work health and safety practices

Welcome to this unit of study

This unit describes the performance outcomes, skills and knowledge required to implement predetermined work health and safety practices designed, at management level, to ensure a safe workplace. It requires the ability to monitor safe work practices and coordinate consultative arrangements, risk assessments, work health and safety training, and the maintenance of records.

The unit applies to all tourism, travel, hospitality and event sectors and to any small, medium or large organisation.

It applies to those people who operate independently or with limited guidance from others. This includes supervisors and departmental managers.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Provide information on health, safety and security.	5
Explaining WHS information	5
Making WHS information accessible	16
Check your understanding	19

Topic 6: Maintain WHS records and reports	182
Completion record	183
Unit mapping and assessment checklist	184
Trainer/ assessor user instructions	189

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Provide information on health, safety and security
- » Monitor safe work practices
- » Coordinate consultative arrangements for the management of health, safety and security issues
- » Implement and monitor procedures for identifying hazards, and assessing and controlling risks
- » Implement and monitor health, safety and security training
- » Maintain WHS records and reports

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
