## TLIB3006

# Carry out inspection of vehicles designed to carry special loads

### Welcome to this unit of study

This unit involves the skills and knowledge required to carry out an inspection of a commercial vehicle designed to carry a special load, in accordance with relevant roads and traffic authority regulations, and workplace policy and procedures concerning vehicle inspection.

It includes action to implement manufacturer specifications for routine checks of vehicle and its associated equipment, to clean the vehicle and its associated equipment, to ensure all specified safety requirements are met, and to ensure vehicle and equipment are operational to workplace requirements and relevant state/territory roads and traffic authority regulations.

Work is performed with limited supervision, with duty of care responsibility for self and others in achieving the prescribed outcomes. It involves the application of routine vehicle checking and maintenance principles and procedures to inspect a commercial vehicle designed to carry special loads, across a variety of operational contexts.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide .....	4
Learning resource.....	5
Topic 1: Check vehicle.....	5
Identifying hazards .....	5
Visual check of internal and external condition of vehicle is carried out in accordance with workplace procedures .....	19
Pre-operational inspections and checks.....	23

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Check vehicle
- » Clean vehicle and ancillary equipment
- » Complete documentation

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
