# Trainer/assessor guide

## TLIE0009

# Carry out basic workplace calculations

### Welcome to this unit of study

This unit involves the skills and knowledge required to carry out basic workplace calculations.

It includes preparing estimates of mass, size and volume of loads, conducting calculations and reviewing the estimates against the calculations.

Calculations are carried out as an integral part of routine work in the context of the workplace. Work is performed under some supervision, generally within a team environment.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

<b>About this trainer/assessor guide .....</b>	<b>4</b>
<b>Learning resource.....</b>	<b>5</b>
Topic 1: Prepare mass, size or volume estimates of loads .....	5
Quantities of materials and resources required to complete a work task are estimated.....	5
Estimates for work completion are made .....	8
Workplace calculation documentation is completed, as required .....	10
Check your understanding .....	11
Topic 2: Carry out mass, size or volume calculations of loads .....	13
Items are counted singly and in batches, and sorted numerically, as required.....	13
Calculations needed to complete work tasks are performed using the four basic processes of addition, subtraction, multiplication and division.....	15
Calculations involving fractions, percentages and mixed numbers, along with using the four basic processes, are performed, as required.....	19
Digital devices are used to perform workplace calculations.....	21
Numerical information is checked and corrected for accuracy, as required .....	22
Information represented in symbols, diagrams and pictorial representations is interpreted and acted upon .....	24
Check your understanding .....	29
Topic 3: Review estimates and calculations .....	31
Estimates and actual calculated results are compared .....	31
Discrepancies in calculations are identified and assistance is sought, as required.....	33
Discrepancies are rectified, as required .....	34
Check your understanding .....	37
References.....	39
<b>Assessment workbook .....</b>	<b>41</b>
Unit information .....	43
What is competency-based assessment?.....	44
How will my competency be assessed?.....	45
Assessment agreement .....	46
Foundation skills checklist.....	47
<b>Skills recognition.....</b>	<b>48</b>
Topic 1: Prepare mass, size or volume estimates of loads .....	49
Topic 2: Carry out mass, size or volume calculations of loads .....	50
Topic 3: Review estimates and calculations .....	51
<b>Knowledge questions .....</b>	<b>52</b>
Topic 1: Prepare mass, size or volume estimates of loads .....	53
Topic 2: Carry out mass, size or volume calculations of loads .....	56
Topic 3: Review estimates and calculations .....	69
<b>Projects .....</b>	<b>73</b>

<b>Practical assessment</b> .....	<b>77</b>
Overview .....	77
Instructions for the learner.....	79
Learner agreement.....	80
Instructions for trainer/assessor or third party .....	81
Third party evidence collection agreement .....	82
Practical demonstration .....	83
<b>Completion record</b> .....	<b>97</b>
<b>Unit mapping</b> .....	<b>98</b>
<b>Trainer/assessor instructions and requirements</b> .....	<b>100</b>

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Prepare mass, size or volume estimates of loads
- » Carry out mass, size or volume calculations of loads
- » Review estimates and calculations

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
