Trainer/assessor guide

TLIF0007

Manage a fatigue risk management system

Welcome to this unit of study

This unit of competency involves the skills and knowledge required for road transport business owners and agents of heavy vehicle drivers to oversee and operate a fatigue risk management system within the Transport and Logistics industry.

It includes identifying legal requirements, responsibilities and liabilities for establishing and/or improving fatigue risk management implementation plans; operating within a fatigue risk management system; and managing operations.

It also includes communicating; updating records, policies and procedures; acting appropriately on reports and identified breaches of fatigue management regulations; and ensuring operational systems are compliant with fatigue management regulations and policy.

Agents of heavy vehicle drivers and/or business owners are defined as a 'relevant party' under Heavy Vehicle National Law (HVNL), with responsibility for operating policies and procedures; human resources and contract provisions; and arrangements for managing safety and fatigue risk management.

This unit is also intended for road transport business owners and agents of heavy vehicle drivers who in future may be required to satisfy National Heavy Vehicle Regulator (NHVR) Fatigue Management Accreditation legislative requirements. Prospective applicants should check with the NHVR before undertaking training and/or assessment.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

Contents

About this trainer/assessor guide	4
Learning resource.....	5
Topic 1: Implement a heavy vehicle fatigue risk management system	5
Planning a fatigue risk management system	5
HVNL requirements, workplace procedures and duty of care	9
External risk factors.....	14
Fatigue risk management.....	17
Communication with stakeholders.....	24
Training	26
Check your understanding	31
Topic 2: Operate within a road transport fatigue risk management system.....	33
Fatigue risk management plans, policies and procedures	34
Fatigue risk principles.....	38
Auditing driver rest and work periods	42
Incidents and non-compliances.....	46
Compliance and fatigue risk management strategies	53
Exemptions.....	55
Auditing the fatigue risk management system	57
Legal requirements, liabilities and responsibilities	62
Scheduling heavy vehicle driver rest and work hours	68
Signs and symptoms of fatigue.....	70
Fatigue risk management	73
Trip conditions, timelines, work and rest requirements.....	77
Trip variations	80
Check your understanding	81
Topic 3: Manage operations within a road transport fatigue risk management system	83
Compliance.....	83
Trip management	87
Managing loading and unloading	90
Check your understanding	91
Topic 4: Communicate required information to relevant personnel.....	93
Fatigue risk management system policies and procedures	93
Non-compliance	98
Check your understanding	99
Topic 5: Update and maintain records	101
Record keeping	101
Reviewing fatigue risk management systems	104
Work diary and records	107
Heavy vehicle workplace records	113
Fatigue risk management register.....	115
Exemptions to work and rest hours and/or record keeping are appropriately identified and documented	119
Check your understanding	123

Trainer/ assessor user instructions.....	226

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Implement a heavy vehicle fatigue risk management system
- » Operate within a road transport fatigue risk management system
- » Manage operations within a road transport fatigue risk management system
- » Communicate required information to relevant personnel
- » Update and maintain records

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
