Trainer/assessor guide

TLIF4014

Develop and maintain a safe workplace

Welcome to this unit of study

This unit involves the skills and knowledge required to develop and maintain a safe workplace in accordance with regulations.

It includes planning and implementing safety requirements; informing and training personnel on work health safety (WHS)/occupational health and safety (OHS) legislation, codes and standards; and establishing and maintaining procedures for assessing and controlling safety risks. It also includes monitoring, adjusting and reporting safety performance, and evaluating the WHS/OHS system and related policies, procedures and programs.

Work involves discretion and judgement in developing and maintaining a safe workplace.

Work is performed under minimum supervision with general guidance on progress and outcomes of work.

Work generally involves responsibility for resource coordination and allocation, and provides leadership of others individually or in teams.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

About this trainer/assessor guide

Learning resource

The learning resource is divided into the following topics:

- » Plan and implement safety requirements
- » Inform and train personnel on WHS/OHS legislation, codes and standards
- » Establish and maintain procedures for assessing and controlling safety risks
- » Monitor, adjust and report safety performance
- » Evaluate WHS/OHS system and related policies, procedures and programs
- » Investigate and report non-conformance
- » Establish and maintain a WHS/OHS records system

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

Assessment workbook

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
