# Trainer/assessor guide

## TLIPC0002

# Plan and prepare to work in a supply chain environment

### Welcome to this unit of study

This unit involves the skills and knowledge required to plan and prepare to work in a supply chain environment.

It includes contributing to own learning; adapting and demonstrating appropriate work practices; working within organisational requirements; and identifying industry sectors, products and services in accordance with relevant legislative and regulatory requirements.

This unit is designed for entry-level workers or students interested in a supply chain career.

It may be undertaken as:

- » part of a formal qualification nationally recognised through the Australian Qualifications Framework (AQF)
- » a stand alone unit
- » part of a formal skill set

# Contents

<b>About this trainer/assessor guide .....</b>	<b>4</b>
<b>Learning resource.....</b>	<b>5</b>
Topic 1: Contribute to own learning in a supply chain environment.....	5

<b>Trainer/assessor instructions and requirements</b> .....	<b>124</b>

# About this trainer/assessor guide

---

## Learning resource

---

The learning resource is divided into the following topics:

- » Contribute to own learning in a supply chain environment
- » Adapt to and demonstrate appropriate work practice in a supply chain environment
- » Work within organisational requirements in a supply chain environment
- » Identify industry products and services in a supply chain environment
- » Identify industry sectors in a supply chain environment

Each topic provides information to help you gain the skills and knowledge required to perform the work tasks to which they refer. Read the information and practise the skills described. You should also take the opportunity to undertake additional independent research. Your trainer/assessor may also provide supplementary information including interpretation of the contents of this resource.

At the end of each topic is:

- » a set of true or false questions
- » a set of multiple choice questions

These questions provide an opportunity to check your understanding and progress. They are self-marking and do not form part of the assessment for the unit.

---

## Assessment workbook

---

To have this unit recognised as a formal qualification you need to have your skills and knowledge assessed. The assessment workbook provides:

- » information on competency-based assessment
- » instructions on how you will be assessed
- » assessment tools to assess your competence
- » instructions on how to complete the assessment tasks within each assessment tool

To be assessed as competent you need to provide evidence that you have the skills and knowledge to undertake the requirements of this unit. This assessment of competency is made by a qualified trainer/assessor from a registered training organisation. You must complete all the assessments as directed by your trainer/assessor to the required standard. It is not necessary to work through the guide in the order in which it is written. However this is at the discretion of your trainer/assessor.
